

# Outsourced Accounting Provides Creative Solution for FTS Solutions

FTS Solutions provides a retail automation platform, through which a small grocery and convenience store businesses can offer the same capabilities as their larger competitors, improve customer loyalty and keep offering great value and experience to their customers to improve their sales.

Accounting District was hired to provide outsourced accounting services with a robust, scalable solution for FTS Solutions. Accounting District analyzed FTS solutions processes and set up new, more efficient systems, implemented cloud technologies that saved time and decreased the risk of errors.

- Innovative, forward-thinking accountants
- Adaptable to new software and applications
- Strategic advisors invested in your growth

With an on-going relationship built on success, Accounting District continuously recommends new applications to amplify the ease of FTS Solutions accounting, recently introducing and supporting Gusto for payroll management.

Streamlining the company's accounting and payroll allowed FTS Solutions to focus on its strategic growth by reviewing custom reports that enables management to query the system for real-time visualizations to answer complex questions accurately.

Accounting District provided confidence to a growing an IT company in an area which can be confusing and frustrating at times and inspired a creative new way of thinking.

*"Accounting District brought a level of expertise and consultation which was helpful as we were developing everything from chartered accounts through to processes and integrations with banking. Their service has certainly saved us a lot of money, given that we don't need to have a full staff of accounting people onboard. This is an important thing for a growing company."*
